## Case Study | Les Mills Extreme

### Project Outline

Les Mills has been one of the leading gyms since first being established in 1968 by a New Zealand Olympian, Les Mills. With 10 clubs ; 250 personal trainers ; 14,000 gyms in over 75 countries using Les Mills Group Fitness classes – they have the tools, support and now storage facilities required to meet their clients fitness goals.

As the successful supplier of a tender application, Precision's reputation and history of supplying quality furniture and storage that stands the test of time was a strong factor in our success. Combined with our proven track record in meeting project timeframes Precision were the obvious choice to deliver to this high impact, high use project.
