Planter integration

Strata 2 Planter boxes are designed specifically for integration with the Strata 2 cabinet range. Planter boxes and cabinets are designed to align with standard heights in the cabinet range producing clean, consistent lines.

Please note: the recommended maximum height combination should not exceed 1430mm. The maximum height is achieved by using a 1200mm high cabinet with a standard 230mm planter box. Planter boxes accept 200mm diameter pots.
